

Be a leader...with Pacifico.

You can always tell the man whose bike has a Pacifico fairing. Pacifico fairings are distinctively individual. And they are chosen by people who want to set the beat...not play second fiddle under someone else's baton. In quality, dedication to craftsmanship, in moderate pricing, value, fuel efficiency, comfort, performance...all those good things... Pacifico fairings hit high notes that the others can't reach.

Your bike... Pacifico fairing and saddlebags
...sheer harmony in styling.
